

SAFIM Group to Present Integrated Hydraulic Power Solutions for Agricultural Machinery at AGRITECHNICA 2025.

SAFIM Group, part of the AL-KO Vehicle Technology Group, is pleased to announce its participation at **AGRITECHNICA 2025**, the world's leading trade fair for agricultural technology. The company will exhibit in Hall 17, Booth D45, **from November 9 to 15, 2025**, in Hanover, Germany.

At this year's show, SAFIM Group will present its comprehensive range of hydraulic power solutions designed to improve the performance, safety, and automation of modern agricultural machinery. From advanced hydraulic brake systems to high-efficiency power units and integrated control blocks, SAFIM's technologies enable OEMs to achieve smarter, more sustainable vehicle designs.

Key Highlights at AGRITECHNICA 2025:

- Complete hydraulic power systems for tractors, sprayers, and telehandlers
- New generation braking and actuation systems with improved precision and reliability
- Custom-engineered hydraulic manifolds and integrated circuits for compact, modular solutions
- Energy-efficient hydraulic control technologies supporting automation and reduced fuel consumption
- Sustainable manufacturing processes, aligned with AL-KO VT Group's environmental goals

Visitors to the SAFIM booth will have the opportunity to explore the company's innovations interactively and discuss technical solutions directly with the engineering team.

Luca Roffi, VP Sales & Marketing of SAFIM Group, commented: "AGRITECHNICA is the ideal stage to showcase how SAFIM Group has evolved from a braking specialist into a complete hydraulic power solutions provider. Our mission is to deliver intelligent, reliable, and energy-efficient systems that help machinery manufacturers achieve greater performance, automation, and sustainability. We're proud to bring Italian engineering excellence to a global audience."

The AL-KO Vehicle Technology Group is a swiftly growing global technology group and a business unit of DexKo Global. With high-quality chassis and suspension components for trailers, leisure and commercial vehicles, construction and agricultural vehicles, the group represents the best in functionality and comfort as well as innovations to ensure greater driving safety. Founded in 1931 the group today has around 3,000 employees at more than 40 locations worldwide. Find out more at www.alko-tech.com

DexKo Global Inc. is one of the world's leading manufacturers of high-quality chassis technology, chassis assemblies, accessories and hydraulic brake components. DexKo Global was founded in 2016 through the merger of Dexter and AL-KO Vehicle Technology. Headquartered in Novi, Michigan/USA, the company employs around 6,000 people in more than 100 production facilities and distribution centers. For more information, please go to www.dexko.com

PRESS RELEASE

Giovanni Pedrinoni, CEO of SAFIM Group, added: "SAFIM's continuous innovation and close collaboration with OEMs allow us to anticipate market trends and deliver complete system solutions. Safety, control, and efficiency remain at the core of everything we design."

About SAFIM Group

Located in Emilia-Romagna region, Italy, SAFIM Group is a global leader in hydraulic power and braking systems for mobile machinery across the agricultural, construction, and industrial sectors. The company develops and manufactures complete hydraulic solutions — including brake valves, power units, and integrated control systems — combining performance, safety, and sustainability. With strong R&D capabilities and global customer partnerships, SAFIM Group delivers advanced technologies that drive the future of off-highway hydraulics.
